## THANK YOU FOR CHOOSING THE CANON QUARTZ MAHA VASTU GREEN DIAL DUAL-TONE WATCH FOR WOMEN (CN-520)

THIS TIMEPIECE IS DESIGNED TO OFFER:

- **PROSPERITY-INSPIRED GREEN DIAL** that symbolises Mercury's energy of growth, intellect and communication in Vastu and astrology.
- **SUN-MOON DUAL-TONE BRACELET** combining gold and silver tones for balance between authority (Surya) and emotional calm (Chandra).
- **ROMAN NUMERAL MAHA VASTU DIAL** that brings a sense of order, structure and timeless elegance to your wrist.
- **VERSATILE EVERYDAY WEARABILITY** for office, festive occasions, traditional functions and modern casual outfits.
- **RELIABLE QUARTZ TIMEKEEPING** for dependable, low-maintenance accuracy in daily life.
- **DAILY PROTECTION** with a durable case and mineral glass crystal suitable for everyday use.
- **CONFIDENCE IN OWNERSHIP** with Canon Quartz quality assurance and a 1-year limited warranty.

Please read this manual carefully to understand how to use, care for, and energetically align your Vastu watch for long-term enjoyment.

## WATCH OVERVIEW:

### Main Components:

- **H** - Indicates the hour
- **M** - Indicates the minutes
- **S** - Indicates the running seconds
- **Crown** - Used for time setting

### How to Set a time:

1. Pull the Crown out gently until it stops (you may feel a small "click").
2. Turn the Crown until the hour and minute hands point to the correct time.
3. Push the crown back in fully to the normal position to restart the movement.

## TECHNICAL SPECIFICATIONS:

### Watch parameters:

Dial Color : Emerald green Maha Vastu dial

Display Type : Analog, 3-hand layout

Case Diameter : 33 mm

Case Thickness : 38 mm

Bracelet Material : Dual-tone metal bracelet

Width : 14 mm

Movement Type : Japanese Quartz Movement

Battery Life : 3 Years (SR626SW or equivalent)

Crystal Type : Mineral Glass (scratch-resistant)

Water Resistance : 3 ATM (30 meters)

Gender : Female

# MAHA VASTU & ENERGY ALIGNMENT

## 1. Green dial & Mercury energy

- Green is associated with Budh (Mercury) in Vedic astrology the planet governing intellect, communication, analysis and trade.
- Wearing a green dial watch is often preferred by people who want support for career growth, networking and business decisions.

## 2. Dual-tone metals & balance

- Gold resonates with the Sun (confidence, leadership, success), while silver connects with the Moon (emotions, intuition, inner calm).
- Together, they symbolise balance between work and personal life, ambition and peace.

## 3. How to wear for Vastu believers

- You may wear the watch on the left wrist if you want it closer to your heart and emotional centre; or on the right wrist if you associate it with action and decision-making – choose what feels aligned.
- Some Vastu enthusiasts like to first wear the watch during a positive moment (new job, new project, auspicious day) as a personal ritual – you can follow this if it resonates.

## 4. Important note

- Vastu and astrology are belief-based systems; results are not guaranteed or scientifically proven.

## **WATER RESISTANCE (3 ATM / 30M)**

Your watch is rated to 3 ATM (approximately 30 meters), meaning it can handle everyday water contact and short exposure not deep water pressure.

### **1. Suitable for**

- Everyday wear.
- Hand-washing and rain.
- Short, shallow exposure to water such as splashing and light surface swimming (non-diving, non-impact).

### **2. Not recommended for**

- Diving, snorkeling, or water sports with strong impact.
- High-pressure water (jets, power showers).
- Prolonged submersion or deep swimming sessions.
- Sauna or steam room use (heat/steam can weaken gaskets over time).

### **3. Important precautions**

- Do not operate the crown while the watch is wet or under water.
- After contact with salt water or chlorinated pool water, gently rinse with fresh water (only if exposure was light) and dry fully with a soft cloth.
- If you notice moisture/fog inside the glass, stop using the watch in water and contact a service center.

## CARE & MAINTENANCE

Taking care of your Canon Quartz watch helps it look new and work properly for a long time.

### 1. Daily Cleaning (Easy Routine)

- Wipe the watch case and glass with a soft, dry microfiber cloth to remove dust, sweat, and fingerprints.
- If your bracelet needs more cleaning, use a slightly damp cloth, then dry it fully right away.
- Do not use strong cleaners, alcohol, or chemical sprays on the watch.

### 2. Battery & Movement Care (Quartz Watches)

- Replace the battery professionally every 2-3 years (or when the watch stops).
- Professional battery replacement is important because battery leakage can damage the internal movement.
- Keep the watch away from strong magnets (phones, laptops, speakers), because magnets can cause the watch to stop or show wrong time; moving it away usually fixes it.

### **3. Case Care (Brass / Stainless Steel)**

- If your watch has a brass case: it can naturally darken over time (called patina), which is normal and happens due to air/moisture exposure.
- If you want it shiny again, gently polish only the brass area using a soft polishing cloth, and avoid the crystal and strap.
- For stainless steel, simply wipe with a dry microfiber cloth to maintain the finish.

### **6. Heat & Shock Safety**

- Avoid extreme heat (car dashboard, sauna) and extreme cold because temperature can affect components and battery life.
- Avoid drops and strong impacts because a watch has delicate internal parts and a crystal that can crack.

### **7. Long-Term Storage**

- If you won't wear the watch for a long time, store it in a cool, dry, dark place (watch box or soft pouch is best).
- Keeping it protected reduces dust buildup and scratches.

## WARRANTY & SUPPORT

If you need help with your Canon Quartz watch, you can contact our support team through the official website or WhatsApp for quick escalations.

### 1. Where to contact (Official)

- Website (Support & Contact): <https://canonquartz.com/pages/contact-us>
- Warranty claim page: <https://canonquartz.com/pages/claim-your-watch-warranty-service-support-canon-quartz>
- Support email: [canonquartzofficial@gmail.com](mailto:canonquartzofficial@gmail.com)
- WhatsApp / Phone: +91 9558579112

### 2. Warranty period (What you get)

- Your Canon Quartz watch is covered by a 1-year limited warranty from the original date of purchase.
- It covers manufacturing defects related to the watch movement, case, or dial.

### **3. What is not covered**

- The warranty does not cover the normal wear and tear, or damage due to accidents/improper use.
- Straps (leather or metal) are not included under warranty because straps naturally wear over time.

### **4. How to claim warranty (Simple steps)**

- Keep proof ready: warranty card photo (or original invoice/e-receipt if card is missing) and clear watch photos showing the issue.
- Submit the warranty claim on the official warranty page and upload the details.
- The service team replies within 2–3 business days.

### **5. Typical service timeline**

After Canon Quartz receives your watch, typical service time is 14–21 business days, then it is shipped back to you.
